

PATIENTS AND VISITORS:

DO YOU NEED A MASK?

YES, YOU DO IF:

- You have respiratory symptoms such as fever, cough, congestion or runny nose
- You are visiting a patient on an inpatient unit who has been placed on special precautions due to an infection

CORRECT:

INCORRECT:

NO, BECAUSE:

If you don't have any respiratory symptoms, it's not necessary for the general public to wear procedure or surgical masks to prevent infection.

Please note North York General Hospital does not provide masks to the general public or visitors with the exceptions noted above.
