MEDIA STATEMENT

OHA Response to London Health Sciences Centre (LHSC) Investigation and Statement of Claims

July 9, 2025, Toronto, ON – "The Ontario Hospital Association (OHA) acknowledges the serious allegations of procurement fraud and financial misconduct against individuals formerly employed by London Health Sciences Centre (LHSC). Following LHSC's filing of two statements of claim the OHA understands that the judicial process will be used to address this important matter.

Ontario's hospitals are strongly committed to financial responsibility and to ensuring the responsible stewardship of their resources. As public institutions, hospitals operate under a robust structure of checks and controls to ensure oversight, accountability and responsible management. Hospitals remain deeply committed to upholding the principles of accountability and transparency to their communities and to ensuring that trust and confidence in the health care system is maintained."

- Anthony Dale, President and CEO, Ontario Hospital Association

Ontario Hospital Association
Established in 1924, the OHA serves as the voice of the province's public hospitals, supporting them through advocacy, knowledge translation and member engagement, labour relations, and data and analytics with the goal of helping hospitals build a better health system. The OHA is also attuned to the broader strategic questions facing the future of the province's health care system and we work to ensure Ontario's hospitals have a voice in shaping this longer-term vision.
